Data-Driven Decision Making | Sports Analytics | Project Management | Baseball Research & Development

TECHNICAL SKILLS

Languages & Tools: Python, R, SQL (DBeaver), Stata, Microsoft Excel, Tableau, GitHub, AI Literacy
Analytical Methods: Regression Analysis, Hypothesis Testing, Data Cleaning & Wrangling, Data Visualization, Multicollinearity (VIF) Diagnostics, Financial Reporting, Descriptive Statistics, Policy Impact Analysis

PROFESSIONAL EXPERIENCE

FOOTBALL ANALYST | **Wake Forest Football** | Winston-Salem, NC *October 2026 – Present*

- Partner with Wake Forest Football staff to build data-driven processes that streamline player personnel evaluation
- Develop custom, in-house analytics tools to support situational in-game decision-making for the coaching staff

ACCOUNTANT | **Karen J Gilmore Consulting** | Remote *June 2025 – April 2026*

- Processed customer invoicing, cash receipts, and accounts payable, maintaining accurate ledgers across multiple client accounts using Excel-based tracking systems
- Reconciled bank transactions and account balances against internal records to ensure data accuracy and support timely month-end close
- Maintained organized digital recordkeeping systems and generated summary reports to support day-to-day business operations and financial decision-making

ASSISTANT COACH | **Master Sports** | San Diego, CA *June 2024 – June 2025*

- Coached and mentored youth athletes, developing skills, discipline, and teamwork
- Organized practices, drills, and team-building activities alongside fellow coaches
- Tracked athlete progress and communicated performance feedback to parents and coaching staff

WAREHOUSE TEAM MEMBER | **C.R. McMullen** | Carlsbad, CA *May 2022 – July 2023*

- Packed and prepared customer orders for shipment, ensuring accuracy and efficiency in a high-volume warehouse setting
- Located and organized lost or misplaced inventory in-store to keep stock levels accurate and shelves ready for customers
- Collaborated with team members to meet daily fulfillment quotas while maintaining a safe, organized work environment

HOST/BUSSER | **Islands Restaurant** | Carlsbad, CA *May 2021 – August 2021*

- Greeted and seated guests, managed wait times, and coordinated with servers to maintain smooth dining room flow
- Reset and maintained dining areas promptly to uphold cleanliness and service standards during peak hours
- Delivered attentive, friendly customer service in a fast-paced, high-volume restaurant environment

ACADEMIC PROJECTS

Econometrics Research — Marital Status & Income | Analyzed IPUMS CPS data in Stata to estimate the effect of marital status on income, running F-tests, heteroskedasticity checks, and VIF diagnostics for multicollinearity.
Business Analytics Group Project — Housing Price Prediction | Analyzed a Kaggle housing prices dataset in Python and Excel, applying regression analysis and diagnosing multicollinearity among predictor variables. Interpreted model outputs to identify key drivers of housing price variation.
Economics of Crime Research — Adolescent Gambling | Built OLS regression models in Stata on GIBS Youth Survey data to study the relationship between household income and adolescent gambling severity.
